The Nirma Institute of Law Student Activity Association, Ahmedabad (NILSAA) strongly condemns the assault on the Six students of NUJS and stands in solidarity with all those students of NUJS.

We, as students of law, have chosen to pursue law not as a mere profession but also as an instrument of social upliftment and change. We have formally and ethically accepted the idea of Justice Education and such incidents are grossly against our ethics. We as the student association strongly believe that as the law school fraternity we all must stand together against this complete obliteration of the rule of law that we seek to defend and practice. We sincerely hope that in this hour of need, our collective conscience will inspire all of us to participate in defending and echoing the common ideals of liberty and rule of law that bind us together. The rights and duties enshrined by the constitution to us cannot be restricted by such displays of force or coercion. We really applaud the actions of the six students who, unfazed by odds, arose to defend the rights of the most vulnerable among us.

Please let us know if we as a team can help you guys in any way possible in this fight. We extend our sympathies and support not only to these students, but also to the displaced slum dwellers.

**Warm Regards**  
**TEAM NILSAA**
